

Deer Hunt Privacy Policy

What information do we collect? We collect usernames and passwords (encrypted), locations for stands and clubs, and observations of deer and other wildlife.

How do we use the information? We use observation data to research deer population and movement on a county level. No exact location of observations is ever released.

What information do you share? We only share information that you mark as public in the app. This information is shared between club members only. The data that is uploaded is used for research purposes only and the lowest level of data shared is on the county level.
